

Lifeline Clinic Photos

TFWA 2015

Milk for orphaned babies & feeding malnourished children

Baby milk for an orphan whose mother died from HIV

Malnourished baby on way to hospital

Baby Angel – orphaned at birth

Feeding milk to a baby with severe malnutrition

Big brother Piet helping to feed malnourished Isak

Baby Charlene, adopted by Eva after her mother died in a car accident. We provide powdered milk.

Baby Regina, who has been malnourished for over 6 months and has received daily F100 porridge from the clinic. In hospital with her mother, and then back home.

Feeding specially formulated porridge to Isak

Another Isak who had severe malnutrition and several hospital admissions. Back home with his mother.

Mother and Baby sessions – health education and food for all!

Preparing the food

Fun in the paddling pool!

Health education

Learning how to brush their teeth!

Local villagers eating meat and porridge

Outreach clinics and Community Health Workers

Performing
clinics 30km
down sand
tracks, seeing
patients out
of the back of
the
ambulance

TB Project

TB screening – patients in ambulance being taken for x-rays, children admitted to hospital for further tests, happy patients in local villages

TB Project

This lady was having a massive bleed from TB when I was called to see her whilst screening. We stabilised her at our clinic and took her to hospital. And reunited her with her family the next day

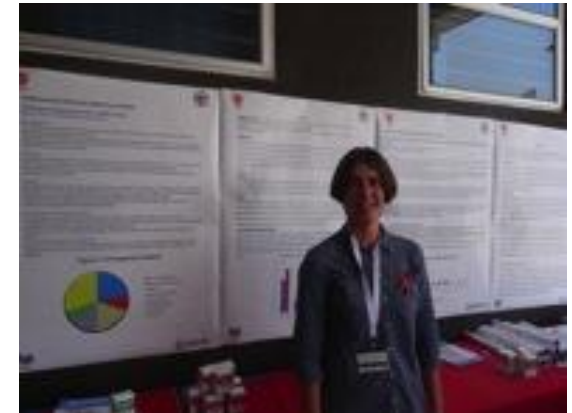

Local patient with TB in hospital

Jan is 3 and has TB. He comes happily to the clinic for his medication (including 8 weeks of injections)

Presenting at Namibia TB symposium

General Photos

Village chief, cared for by the clinic when he had a heart attack, then back home setting an example!

Big brother carrying little brother home

Local school child, receiving emergency treatment in the clinic

Out and about in the ambulance
